A Calgary Man Gets Badly Left.

ST. THOMAS, Oct. 16.—Several years ago when Alex. Lucas of Alvinston who was liquidator of the defunct Fawcett banks, before he left for the Northwest he buried a box containing the books in the postoffice cellar. Lucas has now returned and desiring to get the books, secured a writ which Constable Fitzpatrick executed. A large crowd of the creditors of the bank collected and took the books from the constable. An examination is said to have resulted in the important discovery that

the books are those of the five banks. It is remembered that the bank books mysteriously disappeared at the time of the failure.

Dies in the General Hospital at Winnipeg.

WINNIPEG, Oct. 16.—Senator Hardisty of Edmonton died at the general hospital last night from injuries received at Broadview on the 2nd of the month. The deceased gentleman was thrown from his buggy on that date and injured his back to such an extent that his lower extremities were completely paralyzed. He was brought to this city on the following day and removed to the general hospital. For some time he appeared to be recovering, but suffered a relapse and for the past two days has been slowly sinking. His death is greatly regretted here, where the Senator was a general favorite, especially among the Hudson's Bay officers. That company will probably take the funeral arrangements.

### THE DECORATIONS.

Want of space has prevented us giving a prominent notice of the decorations on the business places in the town on Friday and Saturday on the occasion of the visit of Their Excellencies the Governor General and Lady Stanley. Many of them were tasteful and neat while others were not only neat, but elaborate. Perhaps it would not be far wrong to imagine that the extent of those decorations was some index to the degree of feeling of respect for the representative of the Queen by those who put them up. Though doubtless many more would have decorated if bunting could have been got. The arch on Stephen Avenue was really unique and reflects credit on the designer Mr. James Kelly. His Excellency was much pleased with it especially on account of it bearing his family motto "Sane Change." Some few persons who are opposed to the use of the French language thought the motto should have been translated into English. This would destroy the strength of the motto. To those who have not studied the French and Latin languages from which most of our borrowed mottoes and phrases are taken we would say that it is not any love for dual language or even for display of learning that has caused them to be so chosen, but simply from the fact that there are some ideas, principles and facts that no English sentence will so adequately express as French or Latin words will do. People who have not penetrated to the depths of the languages from which mottoes are taken fail to appreciate the "Mutuum in Parvo" of these short combinations. The literal translation of His Excellency's motto would be "No Change." Now to the casual observer with such a sign stuck up where the motto was, it would doubtless be thought to mean that L. G. Baker & Co. and James Kelly gave no change back, which, of course, everyone would regard as a lie.

Certainly the pain for beauty of design in the show made is between G. C. King & Co. and John Field, English Chemist. As they were each different from the other, they may both be said to be best in their way. There is one thing certain both of them attracted the attention of Lady Stanley and Lady Alice Stanley so much that they called to make purchases at both places on Saturday, no doubt believing that there were loyal hearts behind the scene. The Exchange Hotel had the greatest variety of bunting of any one in town. One would fancy that "George" must have some day commanded an English cruiser and had captured a pirate ship with all her decoy flags. Mr. Wendell MacLean was the first to half-mast colors when Senator Hardisty's death became known and the first to topmast them for the Governor-General. He had also a number of small flags nicely arranged. F. Gillespie, Tea Merchant, and General Grocer exhibited a neatly designed flag with the words "A hearty Welcome." This might have a dual meaning, which the readers of Saturday's HERALD will understand. F. G. Topp & Co. had some nicely arranged colors and an appropriate quotation from "Marmion" "On Stanley On". They had also a large flag with Union Jack. Y. C. Kuley had a quantity of bunting nicely entwined in the form of a long wreath across his block, also a number of small Jacks. Miller & Vaughn also had some neatly arranged decorations over their Tonsorial Palace. So had Halliday & McNeill, fruit dealers, bakers and confectioners. Rankin & Allan and L. G. Baker & Co. had their big flags floating out at right angles from the flag staff. The Windsor Hotel had their mammoth flag unfurled to the breeze, it is one of the finest in town. The fire hall, the new Bank of Montreal and many other places ran up their colors. Before His Excellency came the H. B. Co. had their official flag drooped in respect for the late Senator, during the Governor's stay they

were up to the mast head and again drooped it at the time of the funeral in Winnipeg. The HERALD Office had their bunting out too and from its appearance it was generally admitted to be the flag that had braved through a thousand breezes the summer sun and winter freezes.

### LEGISLATIVE ASSEMBLY.

REGINA, Oct. 16. — Governor Royal opened the second session of the Legislative Assembly this afternoon with the usual ceremonies though without much of the usual formality. The members being in their places and the legislative chamber being filled with speakers. His Honor ascended the throne attired in his evening dress and read his speech in English only.

The following is the Lieut.-Governor's SPEECH.

#### Gentlemen of the Legislative Assembly:

It affords me much pleasure to meet you at the opening of the second session of the First Legislative Assembly of the Territories.

Almost immediately after the session of your labors of last year, I commenced a series of visits to various parts of the country, which were only interrupted by a pressure of business, rendering my presence necessary at the seat of Government. I was thereby enabled to make the personal acquaintance of a large number of the people of the Territories, which was the object I had specially in view, and while doing so the resources and requirements of the country became more apparent than ever.

The opening of the several fall exhibitions that I attended last year, furnished me with a favorable opportunity of meeting the thrifty and comparatively populous communities of Eastern Assiniboina. Later on in the winter, I visited the beautiful district of MacLeod, with its coal mines and its prosperous horse and cattle ranches. I drove along the foot-hills of the majestic Rockies to the pushing town of Calgary and was able fully to concur in the opinion that this district is as well adapted for agricultural as for pastoral pursuits.

In May last I started for Edmonton, Battleford and Prince Albert, and of the wonderful resources of the Battle and Saskatchewan Rivers I can only say that who pretends to know the Canadian Northwest, without having extended his travels into that marvelous country, has yet much to learn. Everywhere I was received with the most marked loyalty, kindness and Canadian hospitality.

The opening of the railway to the northern districts, which is now in course of construction, will effect an astonishing revolution; and the energetic pioneers of the Saskatchewan will before many months elapse find themselves brought, as it by magic, within a few hours easy ride of the markets of the world. The progress of this portion of the Territories, which will in the near future, be also reached by another line of railway from Brandon, is thus assured, beyond all doubt, and, as these railways throw out their busy spurs on every side, settlement will follow and this magnificent country be rapidly developed. Railways are the best pioneers of settlement, and the Northwest Territories is the railway ground of the future. I therefore congratulate you upon the event, which will mark a new era of activity and prosperity in the history of our country.

The harvest of this year has not yielded quite as abundant a return as in 1888; the farmer has had to contend with difficulties of an exceptional character, but upon the whole it may be said that the crop has been as satisfactory.

In the ranching districts the year has been most favorable, and shipments of cattle to the markets of the East and Europe have proved remunerative and encouraging.

The immigration during the season has not been as large as we had hoped for, but you may well be congratulated upon the class of settlers, who are coming from Eastern Canada and the European Continent to plant their homes in the Northwest.

And here I would desire to express our thanks to the Canadian Pacific Railway Company for the kind manner in which they responded to the resolution passed last session in reference to the granting of free passes for Immigration Agents.

Thirty-seven of such passes were issued by the Company, and agents from almost all the Electoral Districts were sent to the East.

I have no doubt that the importance of the interests entrusted to these gentlemen was fully realized by them and that their mission will be attended with the best results.

The unprecedented drought, which has prevailed this year all over the Territories, has caused prairie and forest fires to be more extensive and disastrous than ever. The Ordinance, which you have passed last session, has proved beneficial, and many parties, guilty of criminal carelessness, have been brought to justice. I cannot here too strongly express my acknowledgement of the services rendered to the settlers by the Northwest Mounted Police in their zealous and active en-

deavors to enforce the provisions of this Ordinance.

Peace, order and contentment seem to reign supreme at the present day in this vast province. Small offences are few in number, the laws are cheerfully obeyed; while the ambition of everyone seems centered in promoting the welfare of himself or family and in making the country as attractive as possible to the over crowded populations of the East.

The visit of His Excellency the Governor General of Canada to our Territories has afforded the people a happy opportunity of assuring the noble representative of Her Majesty of their strong sense of loyalty to the British Crown and their deep attachment to the Laws and free institutions of Canada. The Governor General's journey across this vast extent of country will, I am sure, convince him of the unbounded resources, while the cordiality with which His Excellency has been received everywhere, will certainly result in permanently securing for Canada one more illustrious and devoted friend.

I am happy to state that the two most important items of public expenditure, that of schools and public works, have been apportioned with the most satisfactory results.

I shall submit to you the report of the Board of Education addressed to me by the Chairman, His Lordship the Bishop of Saskatchewan and Calgary, giving a summary of the transactions of that body for the last twelve months. This report has been prepared with care, and accurately describes the present condition of our school system. Owing to the liberal and enlightened policy of the Dominion Parliament, in providing for the education of the youth of the Territories, I am enabled to state that there are today in existence 164 schools, attended by 4574 children, and taught by a staff of 183 properly qualified teachers. The increase in 1888, over the preceding year, was 20 schools, 240 children; the increase in 1889 is 33 schools, 1121 children.

The provisions of the Ordinance for the establishment of a higher grade of schools have been put into force and Union school are now in operation at Regina and Calgary. If the ample educational facilities, which we now enjoy and which are not to be found in any other country, were more widely known I am sure it would prove an additional and powerful attraction to incoming emigrants.

Although not quite in accord with the principles of constitutional Government, the system, adopted by the Legislative Assembly, of appropriating, jointly among the different Electoral Districts, the whole of the sum set apart for roads and bridges, to be expended under the supervision of the Member, has been found to practice to work to the best advantage. Under regulations carefully framed by the Lieutenant Governor, in Council, the public money has been spent in a manner productive of the greatest amount of work at the smallest possible cost, and in no instance have I heard of any complaint either as to the mode of letting the works or the method of payment. I have caused a report to be made of all the work carried out in each district during the past twelve months, which will be forthcoming places in your hands and will prove, I have no doubt, full of interest.

Two well-boring machines have recently been purchased, in addition to two which were lately transferred to the Northwest Government by the Department of the Interior. We shall thus be enabled to assist the settlers in procuring a steady and sufficient supply of water in those districts which are chiefly and more seriously affected by the absence of lakes or rivers. The regulations adopted for the management of these machines will be communicated to you, and I need hardly say that any suggestions made by you in regard to this, or any other subject, will receive my earnest and favorable consideration.

In opening the second Session of this Legislature, I believe it to be my duty to call your attention to the necessity of strictly adhering to the Rules, which you have so wisely adopted for the regulation of your proceedings. These Rules are based upon the experience of the House of Commons of Canada, which closely follows the practice of the British Parliament, and I venture to assert that, where little or no regard is paid to such Rules, the existence of constitutional Government is rendered well nigh impossible.

A statement of the receipts and expenditure of the General Revenue Fund will be submitted to you with the Auditor's Report. I will also cause to be laid before you, on an early day, the Territorial estimates for the year 1889-90, which will be prepared with the assistance of my Advisory Council, due regard being had to economy and the requirements of the Public Service.

Gentlemen of the Legislative Assembly: In your consideration of the various measures, which will be submitted to you, I sincerely trust that you will be guided by a spirit of broad patriotism, sound judgment and practical wisdom, worthy of the high trust reposed in you by the Electorate of the Territories, and of which this Legislature has already given proof on many occasions. You are framing the future of a large and wealthy country. May the Divine Providence guide your deliberations in the discharge of the most noble and important functions, that a man can, by the confidence of his fellow men, be called upon to perform.

Contrary to the usual custom, business was immediately commenced. Mr. Haultain introduced a bill to amend the legal ordinance. It was then voted to appoint the standing committee of the session and on motion of Mr. Cayley an adjournment of half an hour was made.

On resuming the committee reported progress. Mr. Betts gave notice of a motion asking for a return of papers referring to the Catholic separate school of St. Albert. Mr. Cayley gave notice of the introduction of bills on mechanics liens, various rural societies, municipalities and married women's property; also for a motion to parliament asking for the repeal of section 110 of the N. W. T. Act; also if the estimates were ready and their amount. The Assembly then adjourned until tomorrow.

REGINA, Oct. 17.

Mr. Speaker took the chair at the usual hour this afternoon at the usual hour.

Mr. Haultain reported from the special committee on standing committees, that the latter be composed as follows:

Civil Justice: Cayley, Secord and Haultain.

Education: Tweed, Brett, Oliver, Richardson, Lineham, Mitchell, Clinkskill Secord and Neff.

Standing Orders and Library: The Speaker, Haultain, Cayley, Thorburn, Plazton, Jelly and Hoey.

Immigration: Thorburn, Ross, Plazton, Sutherland, Clinkskill, Brett, Reaman and Jelly.

Municipal: Betts, Secord, Cayley, Davidson, Richardson, Ross and Lineham.

Agricultural: Jelly, Mitchell, Plazton, Reaman, Turriff, Betts and Reaman.

Public Accounts and Printing: Ross, Haultain, Oliver, Tweed, Sutherland, Davidson, Turriff, Betts and Reaman.

Report received and adopted.

The Mechanics Lien amendment bill and the Municipal bill were read a first time.

In reply to Mr. Cayley's question on the estimates, Mr. Haultain said they were prepared by His Honor as private information for the Interior Department. In this the Governor acted merely as an executive officer of the Dominion Government, and the Advisory Council knew nothing more about them. He was in a position to say that the Governor would be very glad to receive any suggestions on the subject from the members.

Mr. Betts motion on the Prince Albert separate school was carried.

Sutherland, Cayley, Ross, Haultain, and Mitchell were appointed to draft an address in reply to the speech.

Mr. Neff of Moosejaw criticized the speech as being a very fine literary effort but containing not word from His Honor's responsible advisers about prospective legislation. Mr. Haultain said that the Advisory Board had nothing to do with the speech and did not desire to pose as cabinet ministers.

After adjournment Justice MacLeod made the proposal that the Assembly adjourn for a few days and take in the ball at Banff. After a great deal of good humored banter, it was decided to go. Supt. Whyte has been asked to place a special car at the disposal of the members.

Separate schools and the French language must go, at least so says nearly all the Northwest Legislators. Almost unanimous is the cry for their abolition, as I learn from conversation with the members. Cayley, Richardson and Neff have given notice of motions on these two questions.

REGINA, Oct. 18.—Immediately after the reading of the minutes this afternoon, Mr. Cayley moved the following resolution of condolence: "That this House learns with regret of the untimely death by accident of the late Senator Hardisty of Alberta, one of the foremost and most esteemed residents of the Northwest Territories, and desires to express to the bereaved widow and family its utmost sympathy with them in their affliction and that a copy of this resolution be forwarded to the late Senator's widow." Mr. Oliver, who seconded the motion, as well as Mr. Cayley, bore testimony to the estimable qualities of the deceased Senator.

Mr. Secord presented a petition from W. D. Cowan and others asking for the passing of an ordinance to regulate the practice of dentistry. Petition referred to a special committee consisting of Messrs. Oliver, Cayley, Ross, the mover and seconder.

Notice was given of the introduction of ordinances on game, poisons, straying of animals, mortgages and sales of personal property, justices of the peace, medicine and other subjects.

On motion of Messrs. Cayley and Tweed, the following members were appointed a special committee to draft a petition to the Government for the repeal of section 110 of the Northwest Territories Act: Clinkskill, Haultain, Neff and the mover and seconder. Mr. Cayley said the opinion of the Assembly and the country could not be mistaken on this question and there was no need to call upon the government.

On motion of Messrs. Betts and Richardson moved for a detailed statement of the cost of each inspector of schools within the Territories.

On motion of Messrs. Thorburn and Reaman a special committee of Messrs. Jelly, Neff, Davidson, mover and seconder, was appointed to consider any disadvantages and evils under which the farmers may be suffering.

Mr. Brett introduced an ordinance to amend the medical ordinance.

The Speaker laid on the table the report of the Board of Education.

Mr. Haultain introduced a bill to regulate public aid to charitable institutions.

The Assembly then adjourned for an hour and after a long discussion of the Banff trip the members met again and adjourned until to-morrow at the usual time, the Banff affair being declared off.

REGINA, Oct. 19.—Notice was given to day of several important measures which are to be brought forward. Two very vital resolutions were foreshadowed by Mr. Secord, the member for Regina, who gave notice that he would move for a memorial to the Dominion Government on the question of boring artesian wells in various parts of the Northwest. Also that he would move for a memorial asking the Government to pass an act on the question of prairie fires compelling railway companies to plow and burn a strip 200 feet wide along each side of their railways on uncultivated land. The Northwest members of Parliament will be asked to use their best endeavors to have these measures put through at Ottawa.

The bills amending the poison and medical ordinances were advanced a stage. The only amendment to be made to the medical bill is the changing of the date for holding the election of officers from February to the second Tuesday in December.

The ordinance respecting public aid to charitable institutions was read a second time. This ordinance provides for grants out of the public funds for assisting hospitals, homes and other charitable institutions. Under clause 8 the Lieutenant Governor in council may appoint inspectors of hospitals who will report to the Governor.

House adjourned at 3:30.

A Canadian Scholar dead.

A remarkable Canadian, yet one of whom we seldom hear in the west, has just died in Nova Scotia—Rev. Silas Rand. Dr. Rand was a missionary to the Mic Mac Indians. He commenced life as a boy in the United States, and had a love of study. As a result of his application he qualified for the Baptist ministry, and became the master of eight European languages, in addition to English, the Indian language. He also learned Latin, Greek, Hebrew, French, German, Spanish, Modern Greek, Mic Mac, Maliseet and Mohawk. That he was a fine Latin scholar is apparent from the fact that he translated the New Testament "Rock of Ages" elicited from Mr. White a letter of commendation, in the course of which the great strenuous efforts of Dr. Rand were highly commended. He was buried in his own church. The doctor's knowledge of the Indian was put to a good use, for he translated the Scriptures into Mic Mac and wrote a Mic Mac dictionary. In the course of his life Dr. Rand collected all the Indian legends of the Mic Mac Indians, among them the weird story of Glosoway, an Indian myth of the Hiawatha family. Many results of his labors appear in the "Indian and Mic Mac Legend of New England." Dr. Rand was the son of Sir Charles Upper's father's sister. He was Sir Charles's cousin.

The Late Senator Hartley.  
(From Thursday's Daily.)

The late gentleman whose death last night, though not quite unexpected, had created a deep feeling of regret, in our community, was the Rev. Mr. Hartley, Mayor's Lieut. on the 5th of March, 1881. His father and grandfather both having been factors in the Hudson Bay Company's service. He was educated at St. John's school, Fort Garry, and the City of Winnipeg.

At the early age of 17 he entered the Hudson Bay Co.'s service as a clerk. So much were his talents and attention to business that he was soon promoted to an office, and he was rapidly promoted from one position of trust to another, till, 16 years ago, he was made a Chief Factor and put in charge of the Education District, which place he filled with so much zeal and satisfaction that he was soon promoted to the position of Inspector of Cloud Factor.

In this capacity he spent the whole season since the first of May, having visited every post in the district, and from Fort Garry down to the Arctic Ocean. He had completed the inspection of the Qu'Appelle district and was nearing the close of the season's labors, expecting in a few days to hand in his report at Winnipeg, when he was suddenly summoned to the office of the Hudson Bay Co. to receive a summons from his master two weeks ago, for trial at the Court of Quarter Sessions at the general session in Winnipeg last evening.

Two weeks ago Mr. Hartley married Miss Eliza McAllister, eldest daughter of the late Mr. Gey McAllister, a man of property. When the accident occurred a telegram was sent to Mrs. Hartley at the home of her parents in Fort Garry, and she was at once summoned to the office of Mr. G. M. —, a lawyer, who is the attorney for the Hudson Bay Co.

Mr. G. M. —, who is a good lawyer, was deeply moved by the story of the death of Mr. Hartley, and stated on his arrival at the office that he had intended to file a writ of habeas corpus, but that he had been induced to let the Hudson Bay Co. have the body of Mr. Hartley, as he was an uncle of Richard Hartley who fell at the battle of Hastings.

Outline of Miss Hartley.

Was back in the town, in the night of the entombment of Boston, Miss Lee, a colored woman of gigantic stature, possessing the courage of a lion, kept a salient position in the "Black Maria" of the Hudson Bay Co. for a week, and was the cause of much trouble and anguish. One night a party of soldiers, got into the car, and began throwing the American's chistles out of her house. The "watch" was called in, but was soon overpowered and driven away, though the soldiers still remained in the car. The soldiers, stabled out of habitation and stoned further outrage by cutting two of the leading offenders and carrying them bodily to the old "astoria" fort, and then, having secured Union street, now known as Hunter street, "Black Maria" was known throughout the city for her prodigious strength, and for years she alighted the police in quelling riots, and was known to be the three times more to the "Black Maria" than to the "Black Watch" or at all time. So, years afterward, when the first police "car" was made, it was called the "Black Maria"—Hence the name—Boston Globe.

HIGHLIGHTS UP WEST.

Very few people are entirely satisfactory in all lights and under all conditions. Most of us are too good for the world for ward. A young wife, in mourning for a dead old friend, expressed her regret that her husband was not the present.

He was called out long today, "the captain," apologetically, "I am sorry you could not have seen him."

"I would have been very glad to meet him," said the guest politely. "Of course we are all desirous of knowing

him."

"Harry isn't very handsome," went on the bride critically, "though I don't know why you would say this either if you are not going to be long. He does light up well!"—Troy Press.

**The Council Holds a Long Session.**  
(From Wednesday's Daily.)

The regular meeting of the town council was held in the old council chamber at 8 o'clock last evening. His Worship, Mayor Marsh and all the councillors were present. The city clerk E. P. Davis was in his place.

The minutes of the last regular meeting of two weeks ago and of a special meeting held on the 9th inst., were read and adopted.

Quite a number of accounts were read and referred to the proper committees. A letter was read from Mr. W. B. Avery calling attention to an error by which he had been assessed for wrong property. This was referred to the executive and finance committee.

A letter was read from W. B. Scarth, chairman of C.P.R. townsite trustee asking for a sidewalk on Dewdney street to Langevin bridge. The request was backed up by the statement that a large tract of land east of Drinkwater street and north of Stephen Avenue was heavily taxed as town lots, but were not saleable on account of no public improvements having been made there except the wagon road of Dewdney street, and that their lands south of the C. P. R. and east of Oster street were in the same condition, and as the trustees had now paid up their taxes and would continue to do so, he thought they were entitled to the expenditure of some money by the town to make these lands marketable. The letter was referred to the chairman of public works.

A letter was read from J. D. Ronald, of Brudenell, Ont., acknowledging the receipt of \$246.11 in full of his old claims against the town.

A letter was received from Messrs. Lee & Brealey asking for a reduction of taxes on Alberta Hotel on account of the building not being newly completed when the assessment was made and consequently not in a position to bring in any revenue. The letter was referred to the general executive and finance committee.

A letter from Chas. Watson, manager of the Telephone Company in reference to having a night service put in, which he claimed would be a great safety to the town for giving alarm in case of fire, the present service is from 8 a.m. to 8 p.m. Referred to chairman of fire, water and light.

A letter from Judge Cross, of Montreal, re putting in a flouring mill at Calgary. The letter caused an animated discussion in which the whole Council took part. There was a strong feeling manifested by all to do what the Council could properly do to encourage Judge Cross to go on with the mill. The matter was referred to W. F. Orr, chairman of public works, and the Mayor to act with the public works committee.

Councillor King, chairman of executive and finance, reported in favor of paying several accounts amounting to \$359.54. The principal one of these was to McClelland and Wilson for labor of laying sidewalks to date, \$251.04.

Councillor Murdoch brought in a resolution to appoint a committee to draft a plan for sub-dividing the town into three wards, east, west and centre. The proposition had been mentioned before in the council, but did not meet with much favor. The resolution was lost, so the question will probably rest for another year.

The next resolution was moved by Coun. Orr and seconded by Coun. Murdoch, that the committee on public works be instructed to proceed with the construction of the sidewalk westward on Stephen Avenue, as petitioned for by Ihor Ede and others. An amendment was moved by Coun. Fitz Gerald and seconded by Coun. Baumeran that the matter be referred back to the committee on public works and the committee on finance to provide ways and means. When the amendment was put the mover and seconder and Coun. Grant voted for it; Couns. King, Murdoch and Orr against it. His Worship gave the casting vote for the amendment, but before the vote was taken Mr. Ede who was present, was permitted to address the council in support of the petition which he did pretty forcibly. He showed what rates lots were assessed on Stephen Avenue west, and the small amount of work that had been done for that part of the town.

The water works contract was the next subject taken up. The council resolved itself into a committee of the whole with Coun. Murdoch in the chair. The new terms of contract were then taken up and discussed clause by clause. The discussion is too long for our columns. It may suffice to say that the company have complied with all the conditions demanded by the council. The only alteration made in the draft submitted by the company was suggested by Coun. Orr, providing in case of a dead lock between the two arbitrators who may be chosen by the company and the council to value the property in the event of re-purchase by the town, the judge of the Supreme Court shall appoint the third arbitrator. The committee rose and reported and their report was adopted by

the council.

When the mayor resumed the chair the report of the chief of the fire brigade E. R. Rogers, was taken up. Quite a lengthy discussion took place as to who shall have the authority to order the pulling down of buildings at fire, &c. It was finally decided by resolution that all the questions in the report requiring action, to be taken be referred to the chairman of fire, water and light.

After some minor business was got through with the council adjourned at 11:30.

The Governor General's train with His Excellency and party on board, at 10 a. m., for Gleichen to inspect the Blackfoot Reserve.

Dr. P. E. Siz will visit Banff on Oct. 21, 22, and 23rd for the practice of his profession he will be absent from Calgary for one week from the 19th inst.

The Ladies Guild of the Cathedral Church of the Redeemer, intend having an "At Home" in the school house on the evening of Thanksgiving day, Nov. 1.

Walter R. Nursey, representing the Empire, the Field and the Winnipeg Sun, accompanied the vice regal party on their trip from the east to Calgary.

Sir James Grant of Ottawa, physician to the Governor General, did not go to the Blackfoot reserve. He spent the day calling on his medical and other friends in town.

At 8:30 a. m. a special train left Calgary for Gleichen with one passenger car filled with Mounted Police and four cars filled with horses to act as an escort for the Governor General and party during their visit to the Blackfoot reserve today.

All those desirous of being presented to His Excellency and Lady Stanley at the Levee tonight are requested to meet at the Opera House at 9 sharp. By request of His Excellency, morning dress is to be worn. Each lady and gentleman to provide themselves with two cards for presentation to A. D. C. in waiting.

Lady Stanley's train made the distance between Banff and Calgary 80 miles in two hours. The engineers was Mr. Jas. Walker and the conductor Mr. Noble. Not bad time down the gap and through windings of the Bow River gorge.

During the forenoon Her Excellency Lady Stanley, the Hon. Miss Stanley and Miss Lister visited several of the principal stores doing some shopping.

At an early hour this morning His Excellency accompanied by Captain the Hon. C. Colville and the Hon. Mr. Stanley paid a visit to the N. W. M. P. barracks.

nipeg to St. John's cemetery.

At 10 o'clock this morning an address was presented to His Excellency the Governor General in their Excellencies' room "Victoria" by His Lordship the Bishop of Saskatchewan and Calgary on behalf of the executive committee and the diocese, to which His Excellency replied in felicitous terms.

A young lady was out walking on Atlantic Avenue when she spied a prairie chicken picking on the grass near the railway. She followed it up and at first it flew across the track, but she kept up the chase and caught it. Once caught, it was quite tame and made no effort to get away. There are no signs of it having been wounded and its crop was quite full when taken.

At 12:05 o'clock today the Governor General's train drew out of Calgary station for the west with their Excellencies and entire party on board, for Banff National Park. The clouds which were heavy and threatening in the morning had all cleared away by 9 o'clock, giving us one of those sunny days for which this district is so celebrated at this time of the year, and being all that could be desired by their Excellencies to make the entrance to the majestic Rockies.

A very sudden death occurred at Morley last evening about 8 o'clock. The deceased gentleman's name is E. V. Bodwell, of Vancouver, who for many years was well-known in old Canada as supt. of the Welland Canal. He with several other gentlemen had been spending a few days shooting about Morley, a sport of which he was exceedingly fond; he had shot a wolf and other game. In the evening Mr. Bodwell, Supt. Marpole, C. P. R., Mr. Sprague, barrister, of Donald, Mr. D. McLongall, and some other gentlemen were sitting chatting when Mr. Marpole noticed his head drop and sprang to his assistance supposing he had fainted, but the vital spark had fled without a struggle. Supt. Marpole, Mr. Sprague and the C. P. R. mechanical supt. at Donald brought the body to Calgary at 10:30. Dr. Lindsay was telegraphed and made an examination of the body. Mr. Yarlett placed the remains in a beautiful casket and it was forwarded to Vancouver by the 11 o'clock express, where his wife and family reside. Mr. Bodwell was so well known in Canada that it is unnecessary to say that he was held in high esteem by all who had the honor of his acquaintance.

**Monday.**  
Mr. James Mortimer who has been engaged in the manufacture of temperance beer in Calgary, has sold out his establishment to Mr. Neil McLeod. About a year ago Mr. Mortimer went to the Old Country and married a wealthy and accomplished young lady who came here with her husband early in the spring. Mrs. Mortimer did not like the

The Calgary Agricultural Society at their meeting yesterday instructed their president to proceed to Regina to co-operate with Messrs. Cayley & Lineham in the matter of proposed amendments to their existing charter. Mr. Rowe will leave in a day or two to look after the Society's interests at the capital.

Messrs. Hutchings & Riley, the leading Calgary saddlers, have moved their business from the Murdock block, Atlantic Avenue, to the Lineham block next door east of the HERALD office, Stephen Avenue. They are getting in a large addition to their stock and will be in ship shape for inspection in a couple of days.

**WHERE IT WOULD DO MOST GOOD.**  
Publisher of Dead-Beat Paper (to dealer in ready print matter)—"I am thinking of making some important alterations in my newspaper and extending my business somewhat. I called to learn your terms for a supply of 'boiler plate'."

Dealer—"Yes, sir. We shall be pleased to supply you. What size are your columns?"

Publisher—"Columns? What's that got to do with it? I don't intend it to go in my columns."

Dealer—"You don't? What do you want it for then?"

Publisher—"For lining for the trousers of my canvassers."
